

## LEGENDS of Clarkston

As the Board of the Clarkston Education Foundation would visit about education and community experiences, certain names would be mentioned and you would hear sentiments such as "Oh, yes... They were great". We decided it is time those "great" people be thanked, honored and celebrated for the contributions they have made influencing, motivating and cultivating individuals and education in our community. These are the people who create "a bridge to now" thanks to their resourcefulness and will to move things forward in education for our community. These are people who are the roots from which we've grown and people who have grown from the roots of **LEGENDS** before them. They are people who have fostered education in various ways, which is why we have so much respect for them and why we want to recognize their journey.

Please think about who comes to mind when you read the above and submit their name for nomination to be celebrated at a **LEGENDS** event in their honor. We are looking for nominees of any age and two will be selected for celebration.
